## LID572 /573 / 575 RFID reader

# Driver installation manual.

This manual describes how to install the driver for the LID572/573/575. The driver will create a comport for the LID572/573/575. This is the easiest way to communicate with the LID572/573/575.

When the LID572/573/575 is plugged in for the first time, a driver has to be installed. The drivers are part of the Soft57x PC program (minimum version 6.20) which can be downloaded at www.dorset.nu .
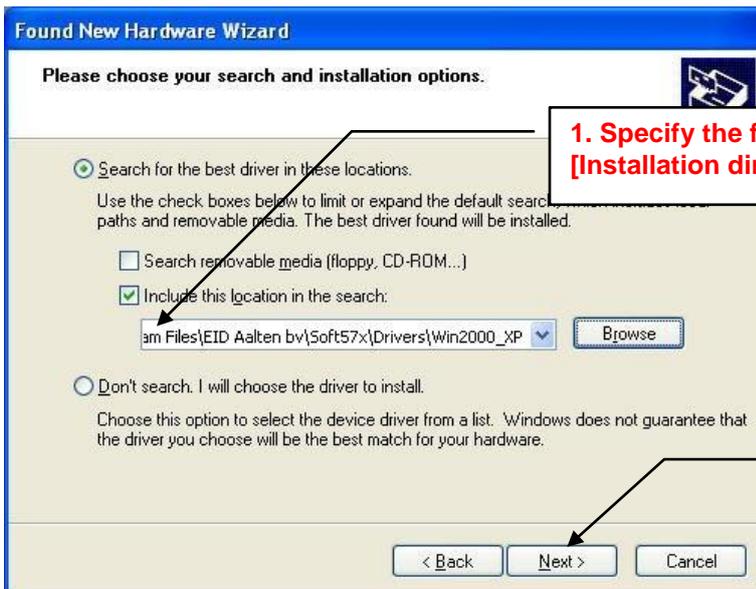

After installation the drivers are located at:

"[Installation dir]\Drivers\WIN2000_XP". In the following steps you will see how to install the driver.

After the LID572/573/575 is plugged in, the following window will show:

**Found New Hardware Wizard**

Welcome to the Found New Hardware Wizard

This wizard helps you install software for:

LID572 portable RFID reader

If your hardware came with an installation CD or floppy disk, insert it now.

What do you want the wizard to do?

○ Install the software automatically (Recommended)
● Install from a list or specific location (Advanced)

Click Next to continue.

< Back    Next >    Cancel

**1. Choose "Install from a list or specific location"**

**2. Click "Next"**

**Found New Hardware Wizard**

Please choose your search and installation options.

● Search for the best driver in these locations.

Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.

☐ Search removable media (floppy, CD-ROM...)

☑ Include this location in the search:

am Files\EID Aalten bv\Soft57x\Drivers\Win2000_XP ▼    Browse

○ Don't search. I will choose the driver to install.

Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.

< Back    Next >    Cancel

**1. Specify the following search path: [Installation dir]\Drivers\WIN200_XP**

**2. Click "Next"**

1

DORSET ID
IDENTIFICATION

**Click "Continue Anyway"**

**Click on "Finish"**

**Special attention to Windows 8 users**

This is a new 'problem' in Windows 8. It is a security issue of Windows 8
See the link below how to solve this.

http://www.nextofwindows.com/how-to-install-an-un-signed-3rd-party-driver-in-windows-8/
